ground floor for sale Fuente En-Segures, Alt Maestrat

Historic house for sale in a unique natural setting, in the renowned Fuente en Segures de Benassal, an area rich in water whose fame comes from the water that flows from the Fuente en Segures spring. This mineral water, due to its therapeutic value for kidney conditions, was considered to have medicinal properties and was declared of public utility in 1828.

Ideal as a second home, investment for rural tourism, or wellness retreat.

Century-old house completely renovated with high-quality materials, preserving original features such as 100-year-old Manises tiles on the walls and floors, and restored hardwoods.

The house is located in the heart of Alto Maestrazgo, surrounded by medieval villages, Templar routes, and protected natural areas.

Just 2 minutes from the Benassal thermal spa.

Unobstructed views, mulberry fields, benches, and an environment of absolute peace.
