

apartment for sale Albacete Centro 02002, Llanos De Albacete

In these home times, the most we can ask for is that we do not lack anything at home, and that is what this apartment offers with all kinds of details and design. Located on the first floor of the building, the house has 140 square meters divided into living room, kitchen open to it, laundry room, patio, three bedrooms and two bathrooms, all fully equipped and with great taste. At the entrance we find the open dining room and the kitchen bar for 6 people. The living room also has a table in case dinner is extended and you have to enjoy a more formal menu, although the wines at the kitchen bar are a delight, especially if you are in good company. The living room is more intimate, where we have two sofas and two armchairs, one of them restored, and a 50-inch television to enjoy movie afternoons. The lighting of the environments means that we can prepare them to taste to be more or less relaxed. In the kitchen, fully equipped, we have a pyrolytic oven, dishwasher, two-meter refrigerator, and built-in furniture to keep order and not to notice that we like caprichitos, also be prepared for visits. From the kitchen we access the laundry room, where we have the patio of lights, which allows us to tend comfortably, but also go out for a coffee when we feel like it. In the same give the rooms, all interior. The first room from the kitchen has restored furniture and shelving. The bed is a trundle for storage, and the mattress is viscoelastic. The second room is the same as the first, but with a different type of design, and in this case, the closet is built-in. Next we have the bathrooms, both fully equipped, one with a shower and the other with a bathtub. The third and last room also has restored furniture and a bed with a trundle, so that the rest does not remember that they sleep in a vintage bed but at the same time they see an extraordinary design in the resting place. Without a doubt, the house is a delight. As extras, we have community heating, where winter is really a pass with the house warm, and a support AACC machine to heat or cool the room when desired. The floor is also insulated on the walls, floor, ceiling and facade, something that keeps the cold and heat very well. The location is perfect, with the fair just down the road and the center within 5 minutes on foot, therefore all kinds of services and shopping centers within a beautiful walk. If you live here, you will want one just like it. Made with great care and love. We visited him?
