

apartment for sale Florida, Alacantí

"Magnificent house with beautiful views of the castle of Santa Bárbara and the gardens of an attractive urbanization next to the Puerta de Alicante shopping center. Being an eighth height, the views are panoramic, good quality of light and especially cross ventilation, the whole house is OUTSIDE.

It has 4 original rooms, currently there are 3 bedrooms because one of them was integrated into the kitchen to turn it into a spacious and functional kitchen.

The kitchen also has a practical gallery with space for a washing machine, dryer, broom cupboard and has a high quality osmosis device installed, this is something really comfortable and healthy.

The living room is very cozy and bright, being square it is very easy to locate the furniture. It has a large balcony from which we can enjoy a pleasant breeze and clear views.

It has two bathrooms, one of them incorporated in suite.

In total there are 3 built-in wardrobes for clothes and another custom-made closet in the kitchen office that functions as a pantry.

The house in general is very well maintained.

We also have a city gas installation in operation.

The surface we have is the one marked by the cadastre.

It also has a comfortable garage space.

In the common areas we will find many very pleasant landscaped spaces, a soccer field, garage and swimming pool with solarium.

The location is very interesting, in front of a shopping center and a variety of commercial establishments, 15 minutes from the beach, public transport service, health center.. . It is a quiet area, ideal to live surrounded by a relaxing environment."
