

## apartment for sale Sevilla Casco Antiguo 41001, Metropolitana De Sevilla

There are few cities in the world that do not relate their urban history to an architect. This is the case in London with John Nash, in Barcelona with Antonio Gaudí and in Brasilia with Óscar Niemeyer, to cite a few examples. Seville does not escape from this binomial either. To speak of the Andalusian capital without mentioning Aníbal González is to steal the great transformation that this city underwent in the first third of the last century, and within its extensive catalog we find this wonderful Palace house hidden from the eyes of the curious. .so only the PRIVILEGED who live there can enjoy it. Its extraordinary location makes it just a few meters from the cathedral, a few steps from Barrio Santa Cruz, or minutes from such emblematic places as El Salvador or Alfalfa. We are received by a beautiful regionalist patio from 1930, very quiet and with excellent neighbors, which deposits us in the portal that leads to our apartment. It is a very bright apartment with a very large living room since, in reality, there are two floors joined into one. Completely renovated and with a first-class decorative project that makes all the materials used to be of the highest quality and luxury brands. The bathrooms and the kitchen have hand-painted tiles from the Triana ceramics workshops...all taken care of in detail.
