Double the Potential: Traditional Townhouse with Second Floor in Salinas

This property in the center of Salinas is a fantastic opportunity for anyone looking for a comprehensive reform project. What makes this townhouse stand out is the existing vertical space.

Key Features:

Two Levels of Living: In addition to the 87 m² ground floor, the property features a second floor, providing significant extra square footage for your renovation plans.

Solid Foundation: Built in 1990, the structure provides a much more reliable base than older village houses, making the renovation process more straightforward.

Versatile Layout: The two floors allow for a modern separation of space—perfect for creating a spacious living area downstairs and multiple bedrooms upstairs.

Prime Location: Walking distance to all local amenities in Salinas. Excellent connections to the AVE high-speed train and Alicante coast.

This is more than just a house; it's a blank canvas with plenty of room to grow. For just €72,000, you can secure a two-story home in a sought-after inland location.
