house for sale Guadix, Accitania

Splendid 17th-century house in the heart of Guadix, with a high potential as a tourist accommodation project.

It is in a prime location, by the Alcazaba, the 11th-century historical monument and other important places like the Peñaflores Palace, the Cathedral, troglodyte dwellings and a 1st-century Roman theatre and museums.

Inside, you will discover 16 rooms (livings and bedrooms), two big patios, a huge cellar, kitchens and bathrooms. Along three floors, there is a total surface of 1000m² with many possibilities, such as loft conversion and the benefit of exposed original beams. There are fireplaces, terraces, balconies, utility rooms, loft storage, and household included.

This property is the perfect guest house in the heart of a historical city, by the Alcazaba, or 30-minutes drive from the Alhambra Palace or the Calahorra Castle.
