

## house for sale Molvizar, Costa Tropical

House to finish renovating to your liking. The renovation began in 2008 but has not been completed, the best thing is that it is a house that has been built new from the beginning, the most difficult thing is the structure and enclosures. The house is about 75 meters, on the ground floor it has a kitchen, living room and a storage room and on the upper floor it has two bedrooms, a bathroom and a landing that can be used to make a staircase to go out to the roof where you can make a nice terrace. The house is in the center of the town and the most beautiful thing about it is that it is around a beautiful Andalusian patio. If you need more information, do not hesitate to ask us.
