

plot for sale Deltebre, Baix Ebre

An interesting structure initiated during the period prior to the real estate crisis (approx. 2009) is being offered to investors and developers. It is ideal for resuming and completing a project with very attractive future potential.~~The property is a plot of approximately 550 m2 located in Deltebre, where around 35% of the construction of a ground floor + 3-story building has already been completed. The project includes the development of 10 residential units, as well as parking spaces and a communal area with a swimming pool, making it a highly attractive product for subsequent sale.~~An excellent option for those looking to shorten timelines and optimize investment by taking advantage of an already built foundation and a clear profitability-oriented concept. Perfect for developing a manageable residential complex with added features (parking and swimming pool) that make a difference in the market.
