

villa for sale Campos, Arzúa

On a rural plot of just over 15.000m², about 4km from the up and coming village of Ses Salines, the construction of a beautiful country house has started. The shell of the house has been completed.~The plot is fenced with the typical dry stone wall of the island, the native vegetation underlines the Mediterranean character of the land. The access to the property is via an asphalted road that ends just a few metres in front of the property.~The house is divided into approx. 145m² on the ground floor and approx. 85m² on the upper floor. In addition, there is a veranda on the ground floor as well as a large sun terrace on the upper floor with magnificent views of the countryside. ~The layout foresees on the ground floor a garage, a utility room, a bedroom, a bathroom and a spacious and light-flooded living-dining room with open kitchen. ~Upstairs there are two bedrooms and two bathrooms, one of which has a dressing room and access to the terrace.~This project offers an excellent opportunity to purchase a country house in Mallorca and finish it according to one's own ideas and needs, without the long waiting times for a building permit that are common in rural areas.~Sale with VAT.~
