A brand new house to enjoy nature a few steps from you... Visit it, you will love it... Somosierra is the highest nucleus of the Community of Madrid, a high mountain town, 1.440 m above sea level, and Madrid 93 km away, heading south. It is located in the tourist area of Madrid in the Sierra Norte and Valle Medio del Lozoya. In the town, the aforementioned hermitage of Nuestra Señora de la Soledad that crowns the port stands out. Among the places to be highlighted in the town are the stone fountain from 1788, which occupies a good viewpoint towards the mountain, and some traditional houses on Calle Real. The Somosierra territory offers a great natural wealth. To begin with, the views of the two slopes — Madrilenian and Segovian — that can be obtained from the top of the port; the Castilian plain is offered in all its splendor from the rock of Zorrullo, to the northwest of the town, finally taking the path of the gliding school; The best panoramic views are offered by the ascent to the summit of the Peña Cebollera Vieja (2.129 m). Pyrenean oaks, remains of the beautiful oak groves that existed in their time, cover a good part of the middle areas. Birch trees offer special interest. Foxes, roe deer and wild boar, remains of an abundant fauna, are hidden among the forests. It is recommended to go to the Peña del Chorro. This is a unique place for hosting, in the melting season, one of the few waterfalls in Madrid. To access the Peña del Chorro, follow the old N1 road towards Segovia and take a path on the righthand side after less than two kilometers. La Chorrera de los Litueros, as the waterfall is called, forms a stream that, together with Las Pedrizas, thickens the river of Puerto, origin of Duratón.
